NY-Sun PV Trainers Network

Safety and Fire Considerations for Solar PV Workshop

Town Board Room

476 Maple Street, Big Flats, NY 14814

Thursday, May 11, 2017 from 9:00 AM to 12:00 PM

NYSERDA's NY-Sun PV Trainers Network invites all first responders to attend the Safety and Fire Considerations for Solar PV Workshop.

This workshop will provide first responders and emergency personnel, such as firefighters and rescue personnel, with a training on safety precautions and fire code considerations with respect to the recognition and disabling of solar photovoltaic (PV) systems.

Main topic areas will include solar technology identification on the premises, disconnecting methods, and code requirements for roof coverage by modules. Additionally, this training will address access to safe walking space, access to ventilation, location and identification of disconnect switches, DC and AC system conduits and conductors, and battery backup systems.

To register:

(607) 962-5092

Fee:

This training is free to attend

About the program

The NY-Sun PV Trainers Network aims to expand adoption and reduce installation costs of solar energy in New York State. Through education, training, and technical assistance, the Network helps local governments and stakeholders identify opportunities, mitigate barriers, and create programs that drive development of solar photovoltaic (PV) markets in communities across New York State.

Please visit <https://training.ny-sun.ny.gov/> for more information on the NY-Sun PV Trainers Network.
